## Garden garland DANDA 10

DANDA outdoor garlands are a long chain of hanging luminaires with a high degree of IP protection, resistant to difficult weather conditions. Outdoor lighting in the form of garlands with replaceable light sources allows for personalization and selection of various bulbs- from classic white, more fancy ones with a non-standard structure, color or glass color, to retro-styled LED filament bulbs. It gives us endless arrangement possibilities, which not only affects the reliability and comfort of functioning, but also builds an amazing and unique atmosphere.
